Frontiers Impacts on Members' Professional Development

Funding Opportunities

"Protected time to do research beyond clinical fellowship has provided opportunity to apply for NIH grants and potentially shape my early career."

Facilitating Collaborations

"The Community Engagement Core has shown me great support for advancing my community-based research efforts."

Scientific Editing **Mock Study Section**

"The mock study section was extremely helpful both in revising a grant application and in getting insight into the inner workings of study section."

Areas for Improvement:

Cross-Functional Opportunities

- Improve interdisciplinary focus by extending opportunities outside of the medical discipline.
- Including more opportunities for communitybased participation research.

Expand Resources and Funding Broaden statistical supports by increasing

- resources and assistance with a focus on students.
- Incorporate more resources and funding opportunities for basic research.

Increase Awareness of Services

researchers outside of KU network.

Launch communication efforts to reach

Actions for Improvement:

We take your feedback very seriously. We have discussed ways to address these improvements at length with our leadership and administration.

Here are some of our action items:

- Disseminate a specialized newsletter that includes all relevant funding opportunities.
- Create enhanced materials for member orientation.
- Expand our video content:
 - Introductions to services
 - In-depth interviews with awardees and trainees How-to video content on navigating the website
 - & our resources

Please remember to cite the Frontiers grant on all work that was supported by any one of our services: "Research reported in this publication was supported by the National Center for Advancing Translational Sciences of the National Institutes of Health under the Award Number UL1TR002366. The content is solely the responsibility of the authors and does not necessarily represent the official views of the National Institutes of Health."
