

**Chris Wilson** serves as Vice President of Strategic Planning at The University of Kansas Health System. Chris leads strategic efforts for boards and senior leaders in enterprise planning, service line planning, digital health and innovation, population health, and rural health. Chris is also Executive Director of the Center for Innovation and Transformative Care at the University of Kansas – a partnership among The University of Kansas Medical Center, The University of Kansas Health System, and the Clinical Departments at the University of Kansas - where he focuses on the intersection of digital technology and the art of medicine including artificial intelligence, digital care delivery, and emerging technology enabled devices. Chris serves on several community, private, and not for profit boards including the Greater Kansas City Chamber of Commerce, the Kansas City Health Care Collaborative, Centrus Health, BioNexus Digital Health, and the ALS MidAmerican Chapter.

Prior to joining the University of Kansas Health System, Chris was a management consultant and health care attorney specializing in new care and payment models, technology, and mergers and acquisitions. Chris received his bachelors from the University of Kansas, Masters in Public Health from Boston University, and law degree from University of Colorado.
