

Sabriya Sowers, BA, AAS, RHIT has a deep interest in data analytics, ethical data practices, and leveraging technology to drive informed decision-making. She is passionate about using data storytelling to transform complex information into actionable and meaningful insights. With over 20 years of experience in the healthcare industry, she has worked in administration, operations, quality improvement, and data management, gaining a variety of skills across these areas. She has served as a liaison between the University of Kansas Medical Center Research Administration and Principal Investigators, facilitating grant application submissions to ensure compliance and successful funding opportunities. Currently pursuing a master's degree in Data Analytics, she is expanding her skills in data visualization, process automation, and advanced analytics, with a strong commitment to helping leaders make ethical, data-driven decisions and providing researchers and Principal Investigators with the data they need to support their initiatives.
