Mock Study Section Requirements (K)

Please review the eligibility and participation requirements carefully. The mission of Frontiers is to improve the translational research process by connecting CTR scientists to resources and training. Basic science and pre-clinical research is not reviewed under the mock study section program. Please review the NIH definition of clinical and translational research to ensure your project is eligible.

Career Development Awards (K Series) Application Sections
Items marked with a star (*) are required for participation

1. **Candidate Information***
   i. **Candidate's Background**
   ii. **Career Goals & Objectives**
   iii. **Candidate's Plan for Career Development & Training Activities During Award Period**
   iv. **Candidate's Plan to Provide Mentoring** *(if required in FOA)*

2. **Research Plan Section***
Please note [NIH requirements for Rigor and Reproducibility](#)
   i. **Specific Aims**
   ii. **Research Strategy**
      a. **Significance**
      b. **Innovation**
      c. **Approach**
   iii. **References Cited/Bibliography**
   iv. **Training in the Responsible Conduct of Research**
